All ProSpray products are EPA registered broad spectrum disinfectants that are proven effective against E. coli, Staphylococcus aureus, M. tuberculosis, HIV-1 (AIDS virus), Influenza A1 including H1N1 or "Swine Flu", and many other organisms. See product label for complete listing of viruses, bacteria and fungi they are effective against.

TM

Shield™ High-Efficiency Face Mask

Shield is a disposable pleated surgical face mask with a flexible nose piece and chin piece that enable the mask to conform to the face creating a positive facial lock (PFL).

- Excellent filtration certified by independent lab testing: Particle filtration = 99% at 0.1 micron.
- Positive facial lock eliminates “blow by” - the passage of particles around edges of mask.
- Fluid resistant, comfortable, and latex-free.
- Available in earloop or retention head band.

Order# PFLEL8: PFL Ear-Loop Standard - 50/box

Order# PFL008: PFL Retention Standard - 50/box
